Center for Regional Disaster Resilience The Pacific Northwest Economic Region (PNWER) and its Center for Regional Disaster Resilience (CRDR) in partnership with Northeastern University's Global Resilience Institute (GRI) have been awarded a 2017 National Infrastructure Protection Plan (NIPP) Security and Resilience Challenge grant for critical infrastructure. The project seeks to develop technologies for UAS (drone) employment to inspect critical infrastructure in post disaster scenarios. Regional Resilience, Economy and Society: Globalising ... What this conundrum might mean for the strengthening of the social and economic resilience of rural areas is the question at the heart of this thoughtful and stimulating book. Neil Ward, University of East Anglia, UK Concepts of resilience and globalisation are central to contemporary discussions on rural sustainability. Resilience in regional economic systems - WEHC 2018 With Martin and Sunley (2015) we define regional economic resilience as "the capacity of a regional or local economy to withstand or recover from market, competitive and environmental shocks to its developmental growth path, if necessary by undergoing adaptive changes to its economic structures and its social and institutional arrangements".

Regional resilience: theoretical and empirical ... This edition of Cambridge Journal of Regions, Economy and Society is devoted to examining regional resilience and assessing its underlying theoretical foundations, the empirical evidence that may lie behind it and importantly what it may have to offer the formulation of policy. The articles in this. droneworkshop - regionalresilience.org The Center for Regional Disaster Resilience (CRDR) and the Pacific NorthWest Economic Region, in partnership with the Washington State Department of Transportation Aviation Division, organized a workshop geared towards working professionals in the local and state government and the private sector. Regional resilience: a stretched concept?: European ... Regional resilience, although a highly influential and quickly adopted concept in the academic field of economic geography and regional studies, as well as among regional policy-makers, has also been criticized for being a fuzzy concept, without a clear definition and meaning (Gong & Hassink, 2017 Gong, H., & Hassink, R. (2017).

Economic Resilience Joint Statement the Southeast Florida Regional Climate Change Compact (Compact Mayors) and the regional economic development community within Southeast Florida (Economic Development Community) to cooperate on building regional economic resilience by focusing on the considerable benefits of public and private collaboration. Comprehensive Economic Development Strategy (CEDS) Content ... Economic Resilience. It is becoming increasingly apparent that regional economic prosperity is linked to an area's ability to prevent, withstand, and quickly recover from major disruptions (i.e., "shocks") to its economic base. Many definitions of economic resilience limit its focus on the ability to quickly recover from a disruption. Coping with Adversity, Regional Economic Resilience and ... Coping with Adversity addresses the question of why some metropolitan-area regional economies are resilient in the face of economic shocks and chronic distress while others are not. It is particularly concerned with what public policies make a difference in whether a region is resilient.

What makes one economy more resilient than another? To help us quantify resilience, we narrowed the definition further by describing it as the capacity of an economy that suffers an economic downturn to restore or return to the pre-crisis level of employment growth.
